VILLAGE SPEEDS PLANS FOR HALL- PARK PROJECT

Letter Today Spurs Interest; Trustees Look for Suitable Site

Information received today from C. M. Osborn, Acting State Director of the Public Works Administration to the effect that real estate is to be reckoned as a part of the cost of public projects financed by the PWA has given new impetus to the move to secure for Antioch community a village park, recreational center and village hall.

Under provisions of the plan the federal government will make an outright grant of 45 per cent of the cost of any type of project which is of a permanent nature, and also will buy the bonds representing the remaining 55 percent of the cost. The interest on the bonds is 4 per cent.

Cost Includes Land

Recently some confusion arose as to whether or not the 45 per cent federal grant was to be figured with the cost of real estate included. Village Clerk Roy L. Murrell addressed an inquiry regarding this to the state director.

"The 45 per cent PWA grant is figured on the total cost of the project, including the cost of the land," State Director Osborn stated in his reply, and then issued a warning that too much of the cost should not be represented in a purchase of real estate, as primarily such projects are for the purpose of providing employment. "High land cost is reflected in the man-year expenditure for the project and makes the project undesirable from the standpoint of the Public Works Administration, as we must see that a substantial amount of the funds allotted will be spent for labor," the letter states.

Director Urges Haste

The director states that funds for this state are being rapidly allotted and that applications are being considered in the order of their receipt. For this reason he suggests that Antioch's application be submitted without delay.

In the meantime inquiry is being made by a committee of board members for suitable locations that may be purchased for a price satisfactory to the PWA authorities. When this survey is completed President Bartlett will call a board meeting for the purpose of making plans to bring the matter to a referendum vote.

State Laws Require Use of Hand Signals On Illinois Highways

Hand signals by automobile drivers are required under the new uniform act regulating traffic on the highways in Illinois. According to this act no person shall turn a vehicle, stop or suddenly decrease its speed without first having given adequate warning to motorists in the rear, or approaching from the opposite direction, or to pedestrians. The new signaling requirements are the same as those in many states, the left turn being indicated by an arm extended horizontally from the car window; a right turn, but the arm extended upward or by a beckoning motion, sweeping the arm from the rear to the front, while the intention to stop or slow down is indicated by an arm extended downward. Failing to signal, or improper signaling, was the principal cause of 220 traffic deaths and 33,420 injuries in the United States in 1934, the records show.

Libertyville Bank Pays 2nd Dividend

Edward J. Barrett, State Auditor, today announced that he has authorized payment of a 10% dividend, amounting to \$32,246.86, to the depositors of the Libertyville Trust & Savings Bank, Libertyville, Illinois. This is the second dividend to be paid since the bank closed, bringing the total up to 55%. The checks will be mailed out August 15th. In addition to this dividend, \$6,255.61 has been paid to preferred creditors and \$56,034.75 has been paid on bills payable. This dividend is being paid out of funds acquired in the ordinary course of liquidation. Wm. L. O'Connell is Receiver for the bank.

MRS. FLANNERY DIES IN CHICAGO TUESDAY

Mrs. J. L. Flannery, sister of Mrs. E. C. Chinn of Antioch died at her home in Chicago, Tuesday, August 13, at six o'clock. Funeral services will be held from the home in Chicago Friday at 9 a. m. Interment will be in Kenosha, Wis.

The Antioch News Begins 49th Year With This Edition

This issue of The Antioch News marks the beginning of the 49th year of continuous publication in this community. The newspaper began recording the daily history of Antioch and its neighboring area in August of 1886. In our files may be found the record of Antioch's achievements, together with its short-comings, but the achievements far outnumber the short-comings. It has knowingly suppressed incidents that, while true, are better "left to the record," and it has not been open for malicious gossip. It will continue to be a true friend to Antioch, the surrounding neighborhood and the many good people who live here.

COUNTY FARMERS PLAN BIG OUTING AT DIAMOND LAKE

Farm Bureau Heads Anticipate Largest Picnic
Tuesday, Aug. 27

Lake county farmers are preparing for their annual picnic to be held at Diamond Lake Tuesday, August 27, with arrangements to accommodate their largest crowd in recent years. More exhibit space has been sold at this time than in the last three years, the picnic committee heads disclose. A special section is being prepared so that anyone wishing to bring in the tallest stalk of corn, biggest ear of corn, the largest potato, biggest squash, or the largest and tallest garden produce, or any vegetable frank or monstrosity, can exhibit them at the picnic. There will be no awards for this section.

Prepare Printed Program

A new feature of this year's picnic is a printed program and premium list which the farm heads are now preparing.

The boys and girls 4-H club exhibits and entries are coming in fast, according to Mrs. Elshery and Earl Kane, chairman of the county 4-H club work. Home-bureau demonstrations and exhibits will also have their spot on the program.

Tom Huffman, chairman of the horsehoe plying committee, is planning a county tournament for singles and doubles teams and Lee Kane, who has charge of the games and races committee, is planning an elaborate program for the afternoon. Both hard and softball games are on the schedule.

The evening festivities will be given over to old time and modern dancing.

Two F. F. A. Boys to Attend State Fair School

George Anderson and William Lyons, Juniors in the Department of Vocational Agriculture of the Antioch Township High School, were recently appointed together with three other boys from Lake county to attend the State Fair School for Boys conducted during the Illinois State Fair at Springfield, August 17 to 24.

The appointment comes through the office of County Superintendent of Schools.

George Anderson of Antioch Township is a son of Mr. and Mrs. Gorm Anderson. William Lyons of Avon Township is a son of Mr. and Mrs. Tom Lyons.

The boys will leave for Springfield on Friday morning.

Local High School Boy Wins Prize in Contest

John Turnock, a Junior of Antioch High School, who resides near Liberty Corners, received word this week that he was the first place winner in a guessing contest conducted by the Arcady Laboratories of Chicago, Illinois, during the International Baby Chick Association convention.

Young Turnock who attended the convention with several others from the Department of Vocational Agriculture, came the nearest to guessing the number of rice kernels in a glass jar. A man from the state of Kentucky was second and one from Marquette, Illinois, third.

Turnock won a valuable assortment of 2 quarts of poultry Vapo-Spray; 2 quarts of roost paint; and 2 quarts of disinfectant. As he raises poultry for his High School agricultural project, these prizes will prove of great benefit to him.

CHICAGOAN DROWNS TRYING TO SWIM AT INDIAN POINT

Becomes Exhausted in Ambition to Conquer Deep Water of Channel

Youthful ambition to swim across deep water claimed the life of Daniel Pat, 21, of 1626 Linder st., Chicago, Tuesday afternoon, in Fox Lake off Indian Point. The boy was attempting to swim the 125 foot channel, became tired and sank below the surface, nearly pulling one of two companions down with him.

His brother Clifford threw an inflated inner tube to the boy who seemed to be too exhausted to grasp it. The inhalator squad of the Antioch fire department responded to the call for aid and dragged the water for more than half an hour before recovering the body. The firemen worked for an hour attempting to revive the lad without success.

At the inquest in Strang's funeral home, Deputy Coroner Penny read the verdict of "accidental drowning while trying to swim channel number one of Indian Point." The victim was vacationing with his aunt, Mrs. D. Koenig, was the son of Mr. and Mrs. Thomas Pat. The Antioch rescue squad composed of Curtis Hadlick, John L. Horan, L. R. Van Patton, Herman Rosling and Clarence Shultis, was assisted by Charles Holmes, Jr., of Indian Point and Arthur Holpus of Chicago.

McMillen Cools Mauling Tactics of Rowdy Texan

After 30 minutes and 16 second of varying degrees of assault, battery, manslaughter, homicide and extreme malice, Jim McMillen of Antioch, Illinois, 25-pounder, and Dick Raines of Texas, 160-pounder, fought to a draw at Round Lake Friday night to add another rowdy gladiator in his victory march to a championship match with Danno O'Mahony, the head man of the wrestling business this season.

Raines made a mistake at the start by taking a maniacal delight in biting, slugging, pinching, mouth-pulling, eye-squishing and strangling for Jim reached deep in his personal bag of tricks to put the Texan through more agony than a Chinese torture chamber. The Antioch grappler demonstrated that he could take it a little bit more than Richard who started to bogganing when Jim treated him to a combination Japanese arm-lock and step-over-hoed.

Raines Asks for It.

Many times Raines failed to break clean when Referee Charlie Lavine separated them and alleged McMillen who was tangled in the ropes. Jim evened the score with straight cuffs to the jaw and head butts to the torso that set Dick and the press representatives in row one. Just before Raines heard the canaries he leaped with both feet foremost toward McMillen's huddled form on the mat but the crafty Antiochan nipped the attempt with his heels unceasing on the cowpuncher's chin. A series of flying tackles and body slams followed to end the brawl and McMillen tottered on rubberlegs to receive a tremendous ovation from some two thousand roaring customers.

Skill triumphed over brawn in the semi-final with Rolfe Kirschmeyer, the giant Oklahoman, pinning Olaf Oleson of Milwaukee with a clutch and half-nelson. The winner tied up the Swede with log-locks that resembled a pretzel with the cramps, clamped a deadly scissors with his long legs and put on finishing touches with body slams in 26 minutes. It was a dandy display of wrestling minus rough-house tactics. Hans Bauer of Germany and Charlie Hansen of Boston, O'Mahony's stablemate, fought to a draw in the preliminaries.

Hunting Licenses Ready at City Clerk's Office

Although the season for hunting will not be open for several weeks, several hunting licenses, which are available at Village Clerk Roy L. Murrell's office, have been sold this week.

Mr. and Mrs. F. Carter Johnson of New York spent several weeks with Mrs. Johnson's mother, Mrs. Eleanor Mitchell, at Bluff Lake. Mr. Johnson returned home Tuesday. Mrs. Johnson will remain for a few weeks.

Mrs. E. A. Lorenz of Chicago is spending her vacation at Channel Lake.

The Homecoming

Antioch Officials "Pinch" 38 Giants; Weighty Evidence

Thirty-eight husky giants, averaging more than 200 pounds per man; one motor coach; and a bus-driver were hauled into the Antioch village hall court room Sunday afternoon on the charge of disturbing the peace, strewn cigarette butts on the highway, accessories to driving an overloaded vehicle on the streets, and sixty or eighty other violations of the Lake county and Antioch code of Blue Laws.

They were also accused of smuggling the recently escaped convict—Henry J. (Midge) Forness—who walked out of Joliet, and the premeditated thoughts of the murder they are preparing to do to a team of All-American football players when they way-lay the youngsters in Soldier Field, Chicago, August 29.

Pinched to McMillen. Punished to the form of honorary membership of the Antioch Fire Department and were paroled to Jim McMillen of Antioch who joined the group. The defendants are all members of the Chicago Bears Professional football team and are training at Delaford, Wisconsin.

The "pinch" was made south of town by Deputy Sheriff Frank Valenta and Harry Quaint, and Fire Chief James Stearns who paraded the highway with a businesslike 45 caliber Colt automatic dangling from his belt, and Assistant Chief Richard Almer. Senator George Maypole and Jim McMillen were the "defendants' rescuers" at the Village Inn where John L. Horan was the "sitting judge."

Stage Final Pop-off. Refreshments and lunch was served and as a parting salute, the motor coach engine was loaded with bombs which well-nigh transformed the already started bus-driver into a nervous wreck when they popped off upon starting the engine.

Antioch Legionnaires Entertain 8th District at Grass Lake Friday

Members of the Antioch Legion post are entertaining their comrades from the 8th district, which is composed of all posts in Lake county, with a huge meeting at Halting's resort, Grass Lake, tomorrow (Friday) night. It is announced by Post Commander Otto S. Klass. As an added attraction to the refreshment list, the Legionnaires will hear and see "The Mystery Saluting Demon" in person.

Husband Rescues Wife from Loon Lake Death

Upon losing her grasp on an inflated inner tube, Mrs. Geneva Tackett, 25, of 7800 Augusta st., River Forest, was rescued in Loon Lake Sunday afternoon by her husband, J. O. Tackett. When brought to the shore she was apparently lifeless, but quick work by the inhalator squad of the Antioch fire department revived her after an hour.

CHARLES WILLEY IS VICTIM OF HEART ATTACK

Mr. and Mrs. Andrew Harrison attended funeral services held Wednesday afternoon at Ingleside Community church for Charles Willey, 58, who died early Monday at the home of his brother, Truman Willey, on the Vol road. Willey's body was found at the foot of a stairway where he had fallen a victim of a heart attack. Before his health failed he was telegraph operator at Hobron tower and he had lived at the Nathan Burgett home for 26 years. Two brothers survive him.

Miss Agnes Biesfang spent Monday and Tuesday in Antioch the guest of the Gaston family and other friends.

COUNTY TO QUIT CLAIM GRASS LAKE FOR STATE PARK

Supervisors Start Action
With Resolution to
Transform Swamp

Twenty-six hundred acres of swamp land in Lake County are destined to become a beautiful state park, the first of the kind in the county. If the plans of the Lake county board of supervisors mature. The first step toward the culmination of this highly desirable proposition was taken this week when the board passed a resolution instructing the state's attorney to quit claim this vast tract surrounding Grass Lake to the state.

Development of the project, which would include suitable drainage, opening of boat channels and landscaping, would cost approximately \$1,000,000, it is estimated.

This large area of swamp land was donated by the Federal government to the state about ten years before the Civil war. Shortly after the Civil war the state donated the land to Lake County.

Because Lake County lacks the funds to develop this swamp-land most of it has remained practically worthless for most purposes. It is figured that the state, with its almost unlimited resources, could convert the tract into an ideal state park. The region long has been a mecca for countless thousands of visitors who came here to see the world famous lotus beds. As a state park its popularity would be even greater and the value of adjoining property would be much enhanced.

Democrats Name Sorenson Head Of 1935 Picnic

Einar Sorenson of Channel Lake has been named general chairman of the Fourth Annual Lake County Democratic picnic to be held at Serbian Monastery park, north of Libertyville, Sunday, September 8, it is announced by Frank McDermott of Waukegan, chairman of the central committee.

Committee to arrange for the festivities which will include a variety of entertainment, sports events for adults and children, dancing and discussions of the political situation by prominent Democratic personages. They were likewise named by the county chairman.

The chairman and their respective committees are: Charles A. Stanton of Ingleside, picnic plans; Hal J. Hazen of Channel Lake, publicity; Frank McDermott, reception; Mrs. Margaret Strang of Waukegan, women; Joseph Levandusky of Waukegan, sports; and William Orlovski of North Chicago, refreshments.

HIGH SCHOOL SETS REGISTRATION DAYS FOR AUGUST 26-27

Registration day for the Antioch Township High School will be Monday, August 26 and Tuesday, August 27. School will begin Tuesday, Sept. 1.

The following changes have been made in the course formerly followed:

Algebra will be no longer required of freshmen nor for graduation. However, algebra should be selected if there is any chance that they wish to go to college. A course in general mathematics is to be offered to freshmen who do not select algebra. The object of this course will be to make it deal with things which are more practical and which will be met as problems in life.

Classes in physical education will be resumed this year. The study of health will be a vital part of this course. The program is to include "athletics for all." Rather than spend the entire time of the coach on the few athletics, a program is being prepared which will cater to every student in school.

A course is being offered for those who wish library training.

Why Not Markings for Lakes Chain?

There must be an urgent need for channel markers through the Lakes chain, judging from the wave of suggestions received at the Antioch News from readers who have voiced their opinion. They point out that taking boat rides through the chain for visits to the lotus beds are causing considerable annoyance as many boats become mired in the weeds "due to the lack of markings." Strangers especially have trouble boating from one lake to another as they are not familiar with the unmarked directions.

VACATIONIST SHOT BY STRAY BULLET

Hit in Head While Boating
on Lake George; Loses
Eye; May Recover

A stray rifle bullet struck the left eye of Miss Helen Klamunde, 50, of 2320 N. Talman ave., Chicago, while she was sitting in a boat on Lake George, south of Bristol, Wisconsin, Monday.

Immediately after the shooting she was rushed to Antioch where first aid treatment was administered by Dr. W. W. Warriner and then on to the Grand hospital in Chicago. Examination revealed that the bullet, which struck her in the left eye, had completely pierced the head, but apparently missed the brain. She will lose the sight of the eye and is expected to recover from the serious wound.

Deputy Sheriff N. J. Otto and William P. Schmitt of Kenosha county made an exhaustive search of the vicinity but failed to uncover a clue to the identity of the careless marksman. The authorities believe the shot came from a high-powered rifle. The bullet apparently struck the water and glanced upward to strike the unfortunate woman. Anna Duchert, also of Chicago, who was in the boat with Miss Klamunde, told the deputies the victim thought her eyeglasses had exploded from the heat before she lost consciousness. They were unable to tell from which direction the bullet came.

Lake County Nine Beat McHenry Lads To Tie for Lead

Lake County's farm bureau baseball club climbed into a first place tie in the district with DeKalb by administering a 10 to 1 licking to McHenry Saturday on Jones' field, near Harvard.

Pitcher Bagel went the route for Lake county, holding McHenry scoreless until the 9th inning when he lone tally saved the losers from a complete washout. Only 19 onmy batters faced Bagel in the first 6 innings, while in the 6th the Lakes aggregation had 10 men face Pitcher Burmeister of McHenry who was slashed for 6 runs. Lake county gathered in their other 4 runs with the aid of 2 errors by relief Pitcher Miller in the 9th.

DeKalb and Lake are scheduled to play the deciding tilt for the district championship at Grayslake Saturday. The team standings show DeKalb and Lake tied with 6 wins and 4 losses; McHenry in third place with 5 won and 6 lost; and Boone in the cellar spot with 4 won and 7 lost.

Softballers May Have Electrically Lighted Home Field in Antioch

With the site for their new home field already settled, the members of the softball team representing the Channel Lake Athletic club are bending every effort toward illuminating the spot with electricity for night playing. The new diamond, which will be located at the intersection of Routes 63 and 173, will be called Naber Field. The site was donated for use of the softball players by Supervisor Barney Naber. Night playing of the game has caught the fancy of fans in other smaller communities in the area as evidenced by the crowds at Spring Grove, Bassett, Ivanhoe, etc., and the boys believe Antioch will support a similar undertaking if given the opportunity.

Robert and Winnie King have been confined to their home this week on account of illness.

THE "SHARE THE WEALTH" TAX BILL

The new tax bill—designed to increase the Federal government's annual income by the neat sum of \$270,000,000—as framed by the House, is in accord with the President's wishes in general, but goes against them in a number of particulars.

The bill is based on the "Share-the-wealth" idea. It would boost taxes on individual incomes in excess of \$50,000 per year; would replace the existing flat corporation tax with a graduated levy; place new levies on inheritances and gifts and tax excess corporation profits from 5 to 20 per cent.

Thus it broadly follows Mr. Roosevelt's recommendations. However, as an Associated Press dispatch recently pointed out, it differs from them in four important instances:

First, the President proposed that the existing 13 1/4 per cent corporation tax be replaced with a levy graduated from 10 1/4 per cent to 16 1/4 per cent. The House bill provides for a graduation of only one per cent—from 13 1/4 to 14 1/4 per cent.

Second, the President strenuously objected to letting corporations deduct from their taxable income gifts made to charity. This recommendation stirred up a flood of opposition throughout the country, resulting in many unfavorable editorials in papers usually friendly to Mr. Roosevelt. The House, apparently taking notice of what seems to be the popular side, has put in the bill a provision allowing corporations to make tax-exempt gifts to charity to the extent of 5 per cent of their income.

Third, the President recommended that a new tax be levied on dividends paid by one corporation to another. The House bill does not provide for this.

Fourth the House bill contains an excess profits tax, something that was not mentioned in Mr. Roosevelt's message.

Aside from these discrepancies, the bill's course through the House was all that the Administration could have desired. Amendment after amendment designed to take some of the sting out of the bill was overwhelmingly defeated. Only amendment adopted was the one concerning the corporation gifts.

Attitude of business is one of complete opposition to the bill, and to the principles it represents. Harper Sibley, President of the Chamber of Commerce of the United States, spoke for industry at large when he said passage of the bill "would increase the forces of disorganization," and that the Chamber would not relax its efforts to defeat the measure. Republican spokesman in the House denounced the bill as "confiscatory, socialism and demagoguery."

The new and increased taxes provided by the bill will

produce relatively little revenue in the light of the government's vast spending. They will tend to frighten investors, force more money into tax-free government bonds. (Mr. Roosevelt has said that these bonds should be taxed, but that requires a constitutional amendment.) However, the President appears to believe that the benefits of the bill will outweigh the disadvantages. That, like the bill's final fate, remains to be seen.

BETTER BUSINESS ON THE FARM

"So long as farming is unorganized," said Sir Horace Plunkett, British agricultural authority, recently, "the greater majority of farmers will have to buy all they require for their industry at retail prices, and sell what they produce at wholesale prices."

"It is a ludicrous situation, that unorganized farmers have to deal with the most highly organized business. The only solution for the farmer lies in 'better business'."

Statistics show that the agricultural cooperative movement is rapidly growing in almost every civilized nation—Sweden, England, Ireland, the United States, etc. It is a tribute to American initiative that its highest development has been reached by farm groups in this country.

Organized farming means eventual prosperous farming. Unorganized farming means the indefinite continuance of agricultural depression.

IN THE BALANCE

Ask any business man, investor, property owner or thinking worker what is most needed to give the nation the confidence, the spirit and the optimism that will break depression.

You might get the same answer from each: "Tax reduction, plus a determined policy that will balance the budget as soon as possible, and gradually reduce and eventually eliminate the vast national debt."

Real, permanent and sound recovery cannot arrive so long as industry faces the prospect of confiscatory taxes that will seize whatever profits it is able to make. We cannot have a wave of home-building so long as our citizens realize that increasing taxes may soon make it impossible for them to keep their property. We cannot have re-employment of the jobless so long as investors are afraid to put their money into productive enterprises—because rising taxes imperil both principal and income.

The national debt is approaching the \$35,000,000,000 mark. Hundreds of millions of dollars a year are required to meet the interest. More hundreds of millions are required for sinking funds with which to pay off the bonds when they fall due. Long after the money has been spent, and the things it bought have disappeared, we and our children will be paying the bill.

The Federal government has attempted to "spend us back to prosperity." In the view of many unbiased commentators we would have gone a long way farther toward recovery had spending been held down—in other words, the government's policy, in their belief, has hindered and not helped the nation. Yet more spending is in prospect—and more taxes.

The people want tax reduction. Business wants tax reduction. Investors and workers want tax reduction. Unless it is achieved, the nation's economic future is in the balance.

MILLBURN

The Ladies' Aid Society will hold a food sale at Gages Lake store located at the entrance of Gages Lake Park on Saturday, August 17. Sales will begin at 10:30 A. M.

Mr. and Mrs. Kenneth Sexton and Miss Mildred Jones of Boliviere, Ill., spent the week-end with the former's sister, Mrs. Dayton Marra and family.

Mr. and Mrs. Lyburn Stewart and Mr. and Mrs. Charles Marshall of Morgan Park were guests for dinner at the J. H. Bonner home Sunday.

Miss Mary Korr of Lake Villa spent Friday with her sister, Mrs. Alice Spring.

Word has been received from Rev. Holden and daughter, Edith, that they are enjoying their vacation at Trout Creek, Michigan, where they are camping with Rev. Caughran and family from Chicago.

Mrs. E. A. Martin and son, Richard, spent Monday in Chicago.

Mr. and Mrs. Ed Gillings of Waukegan were callers at the home of Mr. and Mrs. D. B. Webb Sunday afternoon.

The community extends sympathy to Mrs. James Phillip Dietmeyer in the death of her husband who passed away Thursday morning at Lake County General Hospital, after an illness of three weeks. Besides the widow, he is survived by one son, Phillip, and five step-children, Richard, Margaret, Helen, Robert and James Prince, also three brothers, Guy, Leslie and Sherman Dietmeyer and one sister, Mrs. Carl Chopin.

Funeral services were held at Warren chapel Saturday afternoon with Rev. S. E. Pollock of Antioch officiating.

Mr. and Mrs. Howard Garby and daughter of Chicago spent Sunday with Mr. and Mrs. Robert Bonner.

There was a good attendance at the ice cream social at the Bauman home on Thursday evening.

Prominent State Prisons
The state prisons of Michigan, Ill., Ohio and Ohio are located at Jackson, Mich., Joliet, Ill., and Columbus, Ohio.

Bacteria Strengthen Pottery

Bacteria in clays make them strong.

and more workable for pottery manufacture, tests have shown.

One man puts in—
what the weather takes out!

OCEANS of water, biting blasts, blistering sun—no wonder your roof becomes cracked and porous! Weather takes out the essential water-proofing and preservative oils from the best roofs ever applied. In a few hours, and at little cost, one man with a brush and a can of Carey Asbestos Fibre Coating can give you practically a new roof!

The National Housing Act enables you to have this work done at once and to pay the money back in easy monthly installments extending as long as 36 months. Let us tell you about it.

LAKE VILLA

Mrs. Frank McLaren visited relatives in Michigan a few days last week.

Mr. and Mrs. G. P. Manzer and granddaughter, Catherine Boelun, returned last week from a very pleasant trip to Yellowstone Park.

Mr. and Mrs. Frank McLaren attended the funeral of a friend in Chicago on Saturday.

Mrs. Charles Madison accompanied her son, Bob, to Chicago early Sunday, and Bob will be a patient in the Passavant hospital for observation and treatment for a week or so.

Miss Laura Reluchbach of Chicago spent Saturday night and Sunday with her brother, Carl and family here.

Mr. and Mrs. Fred Hotchkiss of Chicago spent Sunday with their parents, Mr. and Mrs. James Leonard.

Mrs. B. J. Gallor was the guest of her sister, Mrs. Pearl Olson in Waukegan for a few days last week, returning home on Sunday.

Mr. and Mrs. Clarence Miller of Chicago enjoyed an outing at Lake Geneva.

A home talent play, "Here Comes Charley," will be presented in the village park on the last Friday and Saturday night in August for the benefit of the local church. This will be a fine way to spend an evening and also help a good cause. More details later.

Mrs. Mina Gilbert of Waukegan is with her daughter, Mrs. Horace Caultver for a time.

While C. C. Frye was selling tickets for the Ferris wheel at a booth near the wheel last Saturday night, one of the cushions became loosened and fell while the machine was in motion, striking Mr. Frye on the back. He was injured quite severely, and though X-ray pictures showed no broken bones, he will be laid up for some time.

Threshing has begun in our locality and Leo Barnstable was the first to begin on Monday.

H. H. Perry, who is employed at the State hospital in Elgin, enjoyed a two day vacation with his family here this week.

Mrs. J. O. Johnson and daughter, Viola, of Oak Park spent Sunday with the Karollons family. The Johnson family formerly lived here.

Dolbert Shorwood in CCG at Glenview, was home over Sunday with his mother and sister.

Albert Sebeck and Ernest Frollich of Oklahoma City, Okla., came Saturday for a few days visit with the De Solms family at the parsonage.

Mr. and Mrs. George Mitchell and Helen Ann, also Mrs. Harriet Mitchell of Chicago spent Saturday night and Sunday as guests of Mr. and Mrs. James Kerr.

Dr. and Mrs. Gludich entertained Mrs. Gludich's brother and family of

Chicago on Sunday.

W. M. Weber was in Chicago Monday on business.

The Ladies' Aid summer sale will be held in the Village park on Saturday afternoon and evening this week, August 17, from one o'clock on, and various articles of fancy goods, rugs, aprons, bakery goods and food will be on sale. Ice cream and cake will be served, also coffee and doughnuts. The ladies solicit your patronage.

Mr. and Mrs. Wm. Wilson and Mr. and Mrs. Charles Wilson of Zeuda, Wis., were guests of Mr. and Mrs. James Atwell last Wednesday.

Mrs. Ruth Sheehan was hostess for her bridge club at her home last Thursday afternoon at a bridge-luncheon, and Mrs. Ethel Wood, Mrs. Lola Barnstable and Miss Ruth Perry won prizes.

Charles Frye, Jr., familiarly known as "Bunkle" was injured quite painfully on Tuesday when he fell, hitting on a nail cutting quite a gash which was necessary to be sewed up. He is doing nicely.

The annual carnival put on by the local firemen was very well attended on Saturday and Sunday afternoons and evenings and the weather was ideal. One of the interesting features

was a dog show put on Saturday night by the Rennels Kennels by their Doberman Pinschers, and it showed splendid training, as well as intelligent dogs. All concessions did a good business, and a man from Cicero won the \$50.00 merchandise award. Mrs. Chris Donnelly won the \$25.00 award, and Bob Madison the \$10.00 award. The quilt donated by Mrs. Cable is still to be drawn. Free dancing to good music on a new platform was enjoyed up to a late hour both nights. Final figures as to proceeds are not yet available at time of this report.

You can drive it 50 miles an hour the day you buy it

The Ford V-8 is ready for normal driving when you buy it. There is no tedious period of breaking-in for 500 or 1000 miles. You can drive it up to 50 miles an hour the first day. And after the first hundred miles you can drive it as fast as you desire.

That means greater motoring enjoyment for every motorist. It is especially important to motorists who are thinking about a new car for a vacation trip—to physicians, salesmen and all those who use a car for business. Instead of dragging along at slow speeds for days, you can make good time from the start.

The reason for this is as important as the result. The Ford V-8 needs no breaking-in because of unusual accuracy in the manufacture of moving parts and the smoothness of bearing surfaces. Clearances are correct when you buy the car. It is not necessary to depend on a long wearing-in period to eliminate tightness and insure smooth running. Longer life, greater economy and better performance are bound to result from such precision methods. The Ford V-8 gives you fine-car construction, along with fine-car performance, comfort, safety and beauty.

FORD V-8

Yesterdays

Bygone Years in Western Lake County

Forty Years Ago

John Cranduff will preach at the Christian Church Sunday next, morning and evening. A cordial invitation to all.

An effort is being made to keep Rev. Abel in Antioch another year, but a very flattering call from a Chicago congregation may induce him to remove to the city. We hope that the Rev. gentleman may be induced to remain in our town another year.

The Antioch sitting hall met the Little Lake team in a friendly game of ball at the driving park last Thursday, resulting in a score of six to sixteen in favor of the Antioch team. We are unable to decipher the score furnished us, hence cannot give it in detail.

Mrs. W. J. Runyard of Wilmett accompanied by Miss Anna Longman of Trevor were callers at the News office Tuesday.

Messdames R. D. and W. H. Emmons visited Chicago Tuesday.

Thirty Years Ago

Walter Taylor of Waukegan was calling on friends here over Sunday.

Miss Lillie Watson is spending the week with relatives in Milwaukee and Waukegan.

Chester Hockney of Silver Lake was visiting his parents north of town on Sunday.

Mrs. Belle Gilbert arrived home on Sunday evening after spending the past month in Chetek, Wisconsin.

Miss Carrie Chard of Libertyville rendered two splendid solos at the Methodist church last Sunday.

The cantata given at the opera house on Friday evening of last week under the auspices of the Epworth League was a decided success. The children did their parts exceedingly well and everyone present thoroughly enjoyed the evening. The Epworth League realized about \$60 above expenses.

Fifteen Years Ago

Elmer Peterson is visiting relatives in Chicago this week.

Mr. and Mrs. Homer Stevens of Waukegan spent the weekend at Antioch with relatives.

Mr. and Mrs. Wesley Blunt from Colorado spent the latter part of the week in Antioch village.

Miss Hazel White and the Misses O'Connor of Chicago are spending a two weeks' vacation at the John White home.

Mrs. Elsie Schroeder and William Schroeder of Chicago are visiting at the home of the former's parents, Mr. and Mrs. D. A. Williams.

Charles Thorn has sold his home on Victoria street to Homer Stevens of Waukegan. The Stevens family will move here as soon as the house is vacated by the Mathews family.

Ten Years Ago

Mrs. Ray Thompson and son who have been spending the past week at the home of her parents, Mr. and Mrs. George Kuhnert, accompanied her husband to their home at River Forest on Sunday afternoon.

Miss Viola Stickles is spending this week in Chicago with her sister, Mrs. Kyrhum.

Misses Ruth Beebe and Gladys Gault of Woodstock spent last week with their sister and aunt, Mrs. George Garland.

Mr. and Mrs. Freer and children of Oak Park visited at Polka's Sunday.

Mr. Day and daughter, Miss Doris, returned to their home at Winthrop, Canada, after spending some time at the home of Mrs. Verler and family.

Radium Salts for Healing

Strange to say, it is not the pure elemental radium that is sold and bought. This, a white, glistening solid, visible in the dark, was first prepared only after the greatest difficulty in 1910 by Madame Curie. Fortunately it is not radium metal that is necessary for cancer treatments. In hospitals, it is a grayish salt of radium, that looks like dirty table salt, which is used; radium bromide, perhaps, which contains chemically combined about 64 per cent of radium, or it may be radium sulphate. From the radium, speed, extremely penetrating rays, more penetrating than X-rays, destroying morbid cancer cells, fibroid tumors and birthmarks.

Founder of St. Bridget Order
St. Bridget, called "the most famous daughter of the north," was the founder of the St. Bridget Order and built the first convent of the order in 1370 in the picturesque little city of Vadstena at Lake Vattern in central Sweden. When she died in Rome in 1373 her body was carried on foot all the way to the convent church in Vadstena, where it is still interred.

Theories About Cain's Wife
There are various theories about Cain's wife. Some students of the Bible claim Adam and Eve were not the first persons on earth but only the first named persons. Others regard the story of Cain as a composite of several traditions relating to different men named Cain who lived at different periods. Others suppose Cain's wife to have been a sister or perhaps a more distant relative. Genesis, chapter 4, verse 14, tends to support the first of these theories.—Detroit News.

CONTROL OF CREDIT
A BASIC QUESTION

Economist Describes Conflict Between Opposing Social Viewpoints on Government Bank.

Agitation for government banking is a phase of the conflict between our present "personal competitive enterprise system" in America and the "compulsory state collective security system" of several European States, Virgil Jordan, President National Industrial Conference Board, says in an article in a recent issue of "Banking" published by the American Bankers Association.

"They involve irreconcilable principles of human conduct and philosophy of life and the conflict between them is the key to the economic, social and political struggles of today," Mr. Jordan says.

The enterprise system of which "the development of the United States has been the unparalleled example, depends for its motive power of progress upon the inexhaustible reservoir of energy in individual desire for personal advancement in prosperity, but it guarantees nothing to the individual save freedom of opportunity," the article says in part.

The collectivist security system, he says, "places all emphasis upon the maintenance of a minimum standard of living for the mass without regard to the creative power of the individual, quite simply the security system involves the modern form of the philosophy of the slave society." He continues:

A Sign of the Times
"The many-sided movement toward governmental banking, deposit insurance and currency management is the most direct and decisive expression of the universal instinctive search for security which is the sign of the times. In America our so-called social security legislation is an important indication of the drift away from the enterprise system toward a collectivist security system with concentration of authority in a central Federal government."

"The nationalization of credit is crucial and indispensable for complete state control of the complex industrial and business structure of this country. The drive toward government banking and monetary control is most determined because the relation of the state to credit goes to the root of the enterprise system. A collective security system is inconceivable without nationalization of credit. An enterprise system is inconceivable with it."

Under a collective security system, based on government banking, the controls "lie solely in the hands of a few persons and depend upon their judgment, will or caprice," Mr. Jordan says, adding that it is they who must determine "upon the basis of some predetermined plan or upon pure political expediency of the moment, what lines of industry and even what individual enterprises shall have access to the credit reservoir." The state, he says, has the power of life and death over all enterprise that utilizes credit.

"Every government is on 'organ of party power and must respond to the will of the party that put it in power," the Jordan article says. "Under unchecked government operation it is an inescapable tendency of every currency to depreciate and for credit to expand. However much it may be in the interest of the nation, deflation is too dangerous politically for any government to encourage it deliberately."

"In the end government banking and currency management resolve themselves simply into the use of credit as a political instrument of power, and this instrument tends to be used in the long run for expropriation of the savings of the community."

THE FARM BUDGET

By DAN H. OTIS,
Agricultural Director, American Bankers Association

Inventories aid in the formation of a farm budget. Some banks, as well as the Farm Credit Administration, recommend outlining in advance the method of using production loans. Under this plan provision is made for monthly expenditures and funds are granted to the borrower in accordance with the budget plan. The budget helps to show how loans can be repaid.

With the accumulated data from previous inventories and budgets, making business easier and more accurate and valuable. As one branch of the farming plant requires more expenditures, such as for new machinery, fencing, livestock, etc., it may be necessary to limit other branches in order to meet these pressing requirements.

The budget helps to formulate a financial program. It is of special importance in arranging to meet special or large expenditures. If the income and expenditures are carefully budgeted it prevents the spending of money needed for interest and taxes before the time of their payment arrives. It helps to provide a reserve.

The Agricultural Commission of the American Bankers Association feels that this type of work is so important that special emphasis has been placed upon the field of farm inventories, budgets and credit statements as one of its national projects for farm aid.

Uninhabited Islands
There are a number of uninhabited islands in the South Pacific ocean. Tristan da Cunha in the South Atlantic is one of a group of three small islands, two of which are uninhabited. This group is believed to be the most isolated uninhabited group on earth. The two uninhabited islands are named Nightingale and Inaccessible. The Coe or Keeling in the Indian ocean includes 20 islands, some of which have no inhabitants.

The Percheron Breed
Some historians believe modern Percherons are mixed with Arabian blood introduced into La Perche by captive Arabian horses brought from the Holy Land during the crusades. Others say this had little if any influence on the Percheron breed, but admit that Arabian stallions were likely brought to France by some of the crusaders.

Cause of Suicide
A predominant cause of suicide among both civilized and savage peoples, according to one authority, is an accumulation of aggressive, destructive instinct in the race which cannot find an outlet otherwise. Thus it is less in wartime than during peace, when there is no way to express the pent-up aggressive energy by killing somebody else.

Ships' Papers
Ships' papers are documents required to be carried by a merchant ship such as: register, charter party if chartered, log book, bills of lading, invoices, manifest, clearance papers, muster roll, shipping articles, bill of health, bill of sale (if ship has been sold by citizens of one country to citizens of another) together with consular certificate, certificate of inspection, officers' licenses, passenger list, if any are carried; license to carry on a particular trade.

Regweed Generally Unpopular
Regweed is viewed with loathing by hay fever victims. It is also an enemy to the farmer, for it is a host plant for the common stalk borer and for onion thrips.

Municipal Patriotism
In the days of Columbus municipal patriotism was so strong in Italy that every city hated its nearest neighbor.

The Bary Queen Bee
The queen bee deposits the equivalent of her weight in eggs daily. Three days after these eggs, tiny as little pin points, are laid, the blind, footless larvae emerge. During the following six days, a total of but 144 hours, these larvae increase 1,200 times in body weight.

ANTIOCH and Vicinity

Young Antioch Couple Stage Secret Marriage

The marriage of Irisella A. Brett, 18, daughter of Mr. and Mrs. Frank M. Brett of Channel Lake, and Robert Kling, 20, son of Mr. and Mrs. Frank R. Kling of Antioch, which was staged as an elopement July 12, has been announced by the bride's parents. The couple were married by the Rev. DeSelmus at Lake Villa and managed to keep it secret for several days. The bride was graduated from the Antioch Township high school last spring and the groom has been a student at the University of Arizona at Tucson for the last two years.

MRS. WHITE ENTERTAINS "OLD TIMERS"

Mrs. Lloyd White of 225 Ridgeland Ave., Waukegan, entertained the old timers of the Antioch Grade school on Sunday, August 11th, at their second reunion, with a supper party. Twenty-one guests were present, from Milwaukee, Kenosha, Elkhorn, North Chicago, Antioch and Chicago. Mrs. Evan King of Antioch was the prize winner in the hidden names of the entire group contest. Mrs. Bea Burke won the prize in the alphabet stunt. The hostess read a Debatting society paper of the Antioch Grade school of 1895, which was enjoyed by all, as many present were mentioned in it. The party will always remain a pleasant memory for all those who were fortunate enough to be called "Old Timers."

COUNTRY CLUB AUXILIARY TO MEET NEXT TUESDAY

The regular meeting of the Woman's Auxiliary of the Channel Lake Country Club was held on Tuesday at the home of Mrs. Henry Paulson on Lake Catherine. Mrs. W. W. Warriner and Mrs. H. H. Hechers were co-hostesses for the occasion, and a delightful luncheon was served preceding the usual game of contract bridge. The prize winners for the afternoon were Mrs. Wm. U. Ward, of Channel Lake, Mrs. W. W. Warriner, of Antioch, and the guest prize went to Mrs. Brewer, a guest of Mrs. George Bayrd, of Lake Catherine. The meeting next Tuesday will be held at the home of Mrs. J. G. Gaudin, with Mrs. Max Maermain as co-hostess, both of Lake Marie.

MRS. C. W. LAFIN LEAVES FOR LONG ISLAND HOME

Mrs. Charles W. Lafin, whose summer home is on Channel Lake, is leaving for the East this week, her permanent home being at Great Neck, Long Island. Mr. and Mrs. J. P. Horn, Jr., her daughter and son-in-law, are motoring with her, and they are planning a week's trip on their way, going by way of Detroit, Niagara Falls, up into Canada to Toronto, and Quebec, and then down through the New England states, reaching Great Neck by the end of the following week. After about ten days with Mr. and Mrs. Lafin, the young people will return by train to their home in Chicago.

J. R. McBride Celebrates 80th Birthday Anniversary

Mr. and Mrs. J. R. McBride of Loon Lake celebrated Mr. McBride's 80th birthday anniversary, August 13th, with a luncheon and card party, at their home at Loon Lake. The guests present were Mr. and Mrs. J. Faur and daughter of Villa Park, Mrs. George Eder, Mrs. P. Strawstack, Mrs. J. J. Ogles of Chicago and Mrs. B. Elwood of Loon Lake.

JUDGE URBANSKI IS SURPRISED ON BIRTHDAY

Judge August G. Urbanski, of Chicago, who is vacationing at his Cedar Lake home, today found himself a greatly surprised man when thirty of his friends came to his home to help him celebrate his 52nd birthday. Judge Urbanski, of the Cook county probate court, built the second residence in the Fowler subdivision at Cedar Lake several years ago.

BRIDGE-LUNCHEON AT PETITE LAKE WELL ATTENDED

The Mesdames Schilling, Gunz and Kempf sponsored a luncheon and bridge party at Kempf's store and restaurant at Petite Lake Tuesday, August 6, at 1 p. m. The wives of the Beachwood Improvement Association were the guests. There was a very good attendance.

VISITS ANTIOCH FIRST TIME IN 56 YEARS

Mrs. Michael Doyle of Chicago, 72 years old and the mother of 12 children is making a visit with her nephew, John Doyle and family, at Ken-Doyle at Channel Lake this week. This is Mrs. Doyle's first visit out of Chicago for the past 56 years.

MRS. POWLES ENTERTAINED 500 CLUB THURSDAY

The home of Mrs. Emma Powles was the meeting place of the Thursday 500 club last week. Mrs. H. F. Beebe won the highest score, Mrs. James Stearns second high and Mrs. George Kuhaupt third high.

Frank Windinghoff of Milwaukee was the guest of Mr. and Mrs. George Kuhaupt Sunday.

CHRISTIAN SCIENCE CHURCHES

"Spirit" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, August 11.

The Golden Text was, "He that soweth to his flesh shall of the flesh reap corruption; but he that soweth to the Spirit shall of the Spirit reap life everlasting" (Galatians 6:8).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "O Lord, thou hast searched me, and known me. Thou compassed my path and my lying down, and art acquainted with all my ways. Whither shall I go from thy spirit? or whither shall I flee from thy presence? If I take the wings of the morning, and dwell in the uttermost parts of the sea; even there shall thy hand lead me, and thy right hand shall hold me. Yea, the darkness hideth not from thee; but the night shineth as the day; the darkness and the light are both alike to thee" (Psalms 139:1, 3, 7, 9, 10, 12).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "God is individual, incorporeal. He fills all space, and it is impossible to conceive of such omnipresence and individuality except as indolite Spirit or Mind. Hence all is Spirit and spiritual" (p. 331:18, 22-25).

Mrs. Hugh Hufendick and Mrs. Mike Whitehead gave a stork shower for Mrs. Leonard Case at the home of the former yesterday. Guests filled five tables for bridge.

Mr. and Mrs. Walter Hufendick and Mr. and Mrs. Roy Hufendick, all of Chicago, were Sunday guests at the

Cause of Winds
Wind is air in motion. If all parts of the earth were equally heated by the sun's rays, the atmosphere would be equally dense and in a state of perpetual calm. It happens, however, that the sun heats certain areas of the atmosphere more than it does others. The heated portions of the air expand and blow out over the cooler areas. The heavy air of the cool areas is no longer held back by the lighter air of the warm areas and rushes in to restore the equilibrium. Thus winds are formed, says the Washington Star.

The direction of winds is considerably deflected by the rotation of the earth on its axis.

HICKORY

The Hickory West St. Crowd held their annual picnic Sunday at Sportsman's Park, Wedge's Corners. Seventy-five were present this year.

Mrs. Ellen Tillotson is visiting her daughter, Mrs. Alva Scoville in Kenosha.

The Misses Lillian and Virginia Wells of Waukegan were home Saturday afternoon and Sunday. The latter celebrated her birthday on Saturday.

George R. Thompson has a new Ford coach.

Mr. and Mrs. Therval Andersen and family of Chicago and Mr. and Mrs. Rothro and family of Waukegan were supper guests at the Nels Nielsen home Sunday.

Mr. and Mrs. Philip Gould and Norman, Eleanor and Vivian from Grayslake were dinner guests at the Win. D. Thompson home Sunday.

Bob Yopp from Trevor spent Sunday with his friend, Gerhard Lange, at H. A. Tillotson's.

Mr. and Mrs. Walter Cobelli from Hinsdale, visited the Curtis Wells family, Saturday.

Miss Shirley Wells visited the first of this week with her sister in Waukegan.

Dr. and Mrs. A. J. Stream of Chicago spent Sunday at Ed Stream's. Mrs. Nellie Bass and daughter, Mr. and Mrs. J. E. J. Bass and Joe Bates, all from Daraboo, Wis., were callers at the John Crawford home, Monday.

Miss Shirley Mae Hollenbeck from Norwood Park spent Thursday with her grandmother, Mrs. O. L. Hollenbeck.

Mr. and Mrs. Philip Gould and daughter, Mildred from Grayslake called at George Thompson's Thursday evening.

Mr. and Mrs. Frazier Hollenbeck from Norwood Park visited O. L. Hollenbeck's Thursday evening.

Monday Bus Trips To Foot Specialist Great Convenience

Equally as important as the saving of the cost of transportation to Chicago which in itself is an item, is the great convenience to residents in this community of the newly inaugurated free bus transportation sponsored by Dr. Frank Furch, Chicago Foot specialist, for his suburban patients.

The private bus starts at Antioch every Monday morning at 8:30 a. m. (daylight saving time) proceeds to Lake Villa where it picks up patients at the Lake Villa Drug Store and leaves at 8:45. It continues on its way to Grayslake, arriving at 9:00 a. m. and leaving at 9:15 a. m., thence to Libertyville where at Foote's restaurant it again stops a few minutes to receive patients. The entire trip to Chicago consumes only about one hour and three-quarters. The patients are taken directly to Dr. Furch's loop office where they are given appointments and the time before and after their appointment is left to the individual to do as they please. This feature is of great benefit to those who wish to utilize the time for further business or pleasure during the day in Chicago.

The bus leaves the Loop about 5 p. m. and patients are home in time for the evening meal.

It is advisable for those desiring to make the trip Monday to communicate with Miss Jean Aht, telephone Round Lake 41-W-1 for reservations, or meet the bus at any of the above mentioned points.

White Clothes Cooler
In bright sunshine white clothes are cooler than dark ones of the same material, because of the greater reflection of light by the white material. In tropical countries garments of closely woven white fabric are worn to protect the body from the hot sun; they have high reflecting powers and prevent the transmission of ultra-violet rays to the skin.

Quite, Quite Secret
Coral fishermen of the Island of Zlarin, along the Dalmatian coast of Yugoslavia, often go out to their reefs at night, to keep their choicest grounds a secret. The best reefs lie ten miles offshore and a thousand feet below the surface.

Printing Is But a Small Part of the Cost

IN getting out a circular, circular letter or other piece of printed matter. The paper, the addressing, the mailing, the total more than the printing. Yet, in a large measure, the results depend upon the printing.

Let us show you some samples to illustrate our statement

Mari-Anne Stages Fall Style Shows at Social Event

A preview of the new fall style in hats and dresses is being presented at St. Peter's Hall today (Thursday) by Mari-Anne of Antioch as a feature in the program given in conjunction with a card party by the Ladies of Warriner's Subdivision. Examples of the new woollens, dull silks and vel-

rets will be modeled by Mesdames George Schreffer, James Hartley, H. Tull, C. Shults, A. Kimmel, Highgate and Misses Jean Aht, Rose Peterson, Helen Strang and Virginia Tidmarsh. A fashion revue will be presented Sunday afternoon at 3 o'clock with the same models in the Grant Township high school, Fox Lake, as part of the Long Lake Flower show.

PUBLIC CONFIDENCE RESTORED BY BANKS

**American Bankers Association
Describes Its Activities to Cre-
ate Better Understanding
Regarding Banks**

NEW YORK—Eight different lines of activity through which the American Bankers Association is constantly aiming to promote public understanding and opinion in regard to banking and the attitude of bankers toward legislation are described in detail in a statement made public here by R. S. Hecht, president of the association.

The aim, he says, is "to strengthen the real basis for good opinion in regard to the banks," through fostering informative bank advertising in the newspapers and in other ways. The statement was issued in reply to suggestions received urging a nationwide public educational program in regard to "the business of banking and its place in the life of our country."

Mr. Hecht declares that "we have tried very hard to convince the public that the banking fraternity has truly profited by the lessons of the past, is determined to approach all questions of banking policy from the broad viewpoint of public welfare and is prepared to carry its full share of the burden in connection with all efforts to restore sound prosperity in this country."

The Means Employed
In describing the various measures of the association "to exert a beneficial influence on public opinion regarding the functions, methods and operations of banks," Mr. Hecht enumerated the following activities:

1. The Public Education Commission, which prepares plain language talks about banking for use of bankers and others before schools, civic clubs and over the radio.
2. The Constructive Customer Relations program, installed in many banks to help usually bank employees to promote a better informed and more sympathetic attitude among their customers regarding banking.
3. The Publicity Department, supplying city and country daily and weekly newspapers with articles regarding banking and allied subjects and furnishing the general press with news and information regarding the activities of the association.
4. The Advertising Department, supplying members of the association with a series of informative newspaper advertisements setting forth in brief, popular language the methods and policies under which banks operate, their effective practices for protecting depositors' funds, the services they render and the various ways in which they cooperate with business in their own communities in fostering sound recovery and progress.
5. The Executive Officers and the Committee on Banking Studies, who are active particularly at Washington, in consulting with Administration and Congressional leaders in formulating proposals for banking reform based on broad lines of public welfare.
6. The Agricultural Commission, promoting among bankers in the farm districts the practice of aiding their farm customers in installing on their farms better financial and operating methods.
7. The American Institute of Banking, having primarily to do with the technical education of the younger bankers, but now directing these efforts toward also playing a part in improving public relations for banking as a whole, particularly through stressing the public responsibilities and the ethical aspects of practical banking.
8. The publication of "Banking," the official organ of the association, circulating among bankers, bank directors, business executives, economists, law firms, government departments, libraries, colleges, public schools and other publications, presenting articles regarding banking and banking viewpoints.

The Objective Sought
In commenting on the foregoing program, Mr. Hecht says that it is not "the primary objective to attract attention particularly to the American Bankers Association as such, but rather to focus attention on and give impetus to those ideas which it believes are beneficial in promoting understanding and solidarity among banking, business and the public." He adds:

"Our program for the development of satisfactory public relations for banking does not consist merely of newspaper publicity. It is calculated to produce a continuous and cumulative effect by varied efforts which are aimed to work day in and day out to strengthen the real basis for good opinion in regard to the banks."

"To have favorable things said about the banking business in the newspapers and over the radio is, the association recognizes, very helpful toward creating a sound public opinion regarding banking. But the association believes that the most important thing ultimately is to foster throughout the banking profession the doing sincerely of those things that reflect favorably the sound, helpful practices of the business of banking, and that then the true news of its constructive activities will constitute the best answers to misrepresentations aimed at banks and bankers."

Predicts Farm Loan Expansion

NEW BRUNSWICK, N. J. — With marked improvement in agriculture already apparent, and further improvement confidently expected, a greatly expanded volume of farm credit will be required, especially short-term credit, according to a statement here recently by W. I. Myers, Governor of the Farm Credit Administration, Washington, D. C. He was speaking before the Graduate School of Banking, conducted jointly by the American Institute of Banking Section of the American Bankers Association and Rutgers University.

"Some people have expressed a fear that the Cooperative Production Credit Associations are threatening the business of country banks, but these institutions have neither the desire nor the resources to monopolize a field which is still in the infancy of development," Governor Myers said. "Farmers who get their credit on time or by check accounts have a basis for cash loans and should be buying their credit from a bank, production credit association or other institutions that sell it on a business basis."

A New Dinner Deal

NOT a New Deal dinner, but a new dinner deal is what we are talking about. Times are tough nowadays for us to eat up all the money we earn, but that doesn't mean by a long shot that we should eat less well. All that it implies is a little more careful planning on the part of the housewife, and there are a number of ways in which she is doing it now.

If she has a mechanical refrigerator, for instance, she is all fixed to take advantage of the weekly "bargain specials" in the butcher shops and grocery stores, and she can keep the food she has purchased at bargain prices safe and sweet in her refrigerator until it is eaten up. She can also buy large sized cans containing twice as much food, which cost usually only a few cents more than the small ones, and keep the unused part in her refrigerator. These devices may mean a saving of more than a dollar a week—fifty or sixty dollars a year!

Planning Is Fun

Another way she can economize on food is to plan more carefully the dishes she will serve, with price as a consideration as well as taste and appropriateness to the other dishes in the meal. It is real fun and a small triumph to be able to think up another dish just as tasty and appropriate as the one you first thought of but costing less. That these three factors can be successfully combined, once you get the knack of it, is proved by the following tempting menu devised by a graduate dietitian to serve to six people at a cost of only a dollar and a half.

**Melon and Grapefruit
Cocktail 15¢**
Jellied Salmon Mold 46¢
Mashed Potato 16¢
Radishes and Scallions 15¢
Bread and Butter 12¢
Blackberry Roll with Cream 34¢
Iced Coffee 12¢

Of course these prices are only approximate, but as much of the dinner consists of canned foods and their prices are more stable than that of fresh foods, they can be taken as fairly representative.

Here Are the Recipes

Melon and Grapefruit Cocktail: Combine half the contents of a No. 2 can grapefruit (serving the other half to the refrigerator to serve at another meal), one cup watermelon cubes and one cup cantaloupe cubes. Arrange in cocktail glasses and chill.

Jellied Salmon Mold: Dissolve one package lichen gelatin in one and a half cups boiling water. Cool and add one-half cup orange juice and one-half cup canned grapefruit juice. When it starts to stiffen, add the jellied contents of one tall can salmon, one cup diced celery and one-fourth cup diced sweet pickles. Chill in a mold. Unmold and serve on six leaves of lettuce with six tablespoons of mayonnaise. This makes sufficient for six liberal servings.

TELLS HOW BANKS AIDED PROGRESS

**Economist Describes the Ways
Banking Institutions Have
Contributed to Develop-
ment of United States**

OMAHA, Neb.—Privately owned banking, despite its faults, has served America well, William A. Irwin, Professor of Economics, Washburn College, Topeka, Kansas, declared in a recent address here on "Banking in a Changing World."

"Under the leadership of individuals banking has helped to bring this country to a foremost place in economic development among the nations of the world," he said. "The small community has been developed by the individual bank. The frontiers of America have been pushed forward by the help and counsel of the individual banker. The shocks of wars and depressions in a century and a half have been withstood with the assistance of the individual banker."

Change May Be Necessary

"It may be that we have reached a tide in the affairs of America when new methods are needed. It may be that we have come to a point where the individual should be submerged for the greatest good of his greatest number."

"It may even be that complete centralization of the banking system has become an economic necessity in our complicated social life. But the banker ought to be satisfied that these things are so before he should give up his fight for the system we have known. We came to greatness under that kind of banking; we should not give it up without unmistakable proof of the absolute necessity of such a change."

The American Pattern

Professor Irwin said that the proposal which has been advanced for coordinating banking operations in the national interest under "a Supreme Court for banking is typically American and ought to have the most serious consideration of those elements which are clamoring for political control, which is typically un-American." It is not wise, he said, to oppose changes as such, but that bankers should "see to it that change, if and when it does come, shall preserve all that is good in the past and stick as closely as possible to the American pattern of things."

Banking is properly a conservative profession, he pointed out, and should cling to practices and principles of banking that are, and always have been, fundamentally sound.

"It is to its credit that so large a group of its members never faltered, even in boom times, in their allegiance to those sound principles," he declared. "We probably owe our salvation from chaos to that fact."

BANKS AND COLLEGE LAUNCH NEW SCHOOL

**Aims to Offer Studies in Advanced
Banking Subjects to Bank
Executives—Public Duties
of Banks Stressed**

NEW BRUNSWICK, N. J. — The Graduate School of Banking, an unprecedented educational project, operated under the joint auspices of the American Institute of Banking Section of the American Bankers Association and Rutgers University, with 220 enrolled students from 35 states and the District of Columbia, inaugurated here in June its first resident session.

The states represented and the number of registrants from each were as follows: Alabama, 2; Arkansas, 2; California, 2; Connecticut, 9; Delaware, 3; District of Columbia, 6; Florida, 2; Georgia, 3; Idaho, 1; Illinois, 8; Indiana, 2; Iowa, 1; Kansas, 1; Kentucky, 3; Louisiana, 3; Maryland, 1; Massachusetts, 9; Michigan, 5; Minnesota, 1; Missouri, 5; Nebraska, 1; New Jersey, 31; New York, 50; North Carolina, 8; North Dakota, 1; Ohio, 7; Oklahoma, 1; Oregon, 2; Pennsylvania, 32; Rhode Island, 1; Texas, 6; Virginia, 6; Washington, 1; West Virginia, 1; Wisconsin, 4; Wyoming, 1.

The annual resident sessions of the graduate school will be supplemented between periods by continued extension work for the students at their homes. The purpose of the school is described as being to offer in a three year course a comprehensive approach to an advanced study of the various administrative problems in banking and trust institutions. The teaching procedure is a combination of the case system and the lecture discussion method.

"Ups" and "Downs" of Wheat

In the bygone days in Ohio, one could always tell on meeting the farmers returning from market whether wheat was "up" or "down." If wheat was "down" they approached slowly, their heads and shoulders drooping, their countenance cheerless, and to the question of the price would draw out in grumpy tone "f-seety cents." If wheat was "up," they would be seen coming up the road at a brisk stride, heads and shoulders up, and their eyes bright. If you inquired of the price of wheat "today," they would answer with one cheerful word, "dollar."

Diphtheria Cantaries Ago
Diphtheria first was accurately described in 1703, but the bacillus of the disease was not found until more than a century later.

Dover, Delaware

Planned by William Penn in 1683, it was not until 1717 that Dover, Del., was laid out. Penn designed it to be the most important town of the County of Kent. In 1722 the state house, later the state capital and today the oldest edifice of its type in public use in the United States was built. In subsequent years, Dover's "Green" came to be surrounded by handsome homes. Through the intervening decades these homes have slowly developed into museums of high standing, with their furniture, their fittings and their art.

Clocks and Watches

The Chinese claim to have invented the clock about the year 2000 B. C. There is a general belief that Gerbert, who afterward became Pope Sylvester II, made the first mechanical clock for the Magdeburg cathedral in the year 900 A. D. Before that time, sundials, sand-glasses and clepsydras (water-clocks) were employed, also notched candles and graduated lamps. Peter Henlen or Hele of Nuremberg is given credit for the invention of the mainspring which made watches possible, about the year 1500, and one of the oldest watches in existence was made in that city in 1500.

The Indian "Cornplanter"

"Cornplanter" (1732-1836) was a celebrated half-breed chief of the Seneca Indians, the son of a trader named John O'Hall. During the French and Indian war, he led a war party of the Senecas which had joined the French against the English, and took part in the defeat of Braddock in 1755. During the Revolutionary war he joined the English, took an active part in the border conflicts in New York, and seems to have been present at the massacre of Wyoming. Afterward he became a steadfast friend of the whites and with Red Jacket, directed the affairs of his tribe for many years.

Gulls Destructive

According to investigation by the bureau of biological survey, certain species of gulls are destructive to other birds. Among these species are the black-backed and herring gulls, which break up the nests of elder ducks, terns, smaller gulls and other local birds.

Call Steamers "Tin Cans"

Many old-time seamen of the salt-boast era scornfully refer to steel-plated steamers as "tin cans."

As Fish Smell and See

There is some detection of the power of smell in fishes, but this sense is not independently and acutely developed. Likewise the eyes, notes the Washington Star. While well developed corners, lens and pupils are absent, it is not believed that vision, although acute within limits, has advanced to a degree corresponding to the high position in the animal kingdom held by fishes. Of particular interest in connection with the eye of fishes is the fact that there is not a fixed point of focus. Fishes do not see objects, even in motion, at great distances.

The Riksdag in Sweden

The Riksdag in Sweden is particularly notable among European parliaments because it exercises a power greater than that even supposedly held by the throne. The king governs by the consent of the governed, not by divine right, the governed being represented by this all-powerful assembly. The monarchy could be abolished and a republic established by the vote of two consecutive Riksdags between which there had been a general election.

St. George's Bay

The bay where Beirut, Syria, stands, is known as St. George's bay, and takes its name from the legend of St. George and the dragon. The well into which the dead body of the dragon was cast is still pointed out to those who are willing to believe the story.

WANTED—MAN OR WOMAN

Establish steady monthly income introducing new and sensational "Depression" Life Insurance policy for established Legal Reserve Co. \$100 month all ages. Big demand. No experience needed. Our supervisor will train you. UNION LIFE, 6 N. Clark, Chicago.

BLACKHEADS UGLY PIMPLES

Don't let an unsightly complexion rob you of life's pleasures. You can have a creamy-white, clear skin. No embarrassment. Just ask for ZENZAL at Reeves'. Pleasant to use—white, stainless, odorless. Money back if ZENZAL does not promptly rid you of all pimples, blackheads and skin irritations.

WILMOT

William Lieske, of Eau Claire, who is studying at Northwestern university this summer, was a week-end guest of Mr. and Mrs. Frank Burroughs.

Laura Leo Lewis, of Milwaukee, is spending the week with Anna Marie Carey at Twin Lakes.

Sunday guests of Alfred Reynolds were Mr. and Mrs. R. Kinross and children from Blewett, Mr. and Mrs. Winn Peterson and family, Kenosha.

Mr. and Mrs. John Hasselmann and daughters, Kenosha, and Mr. and Mrs. Harry Hasselmann, of Sycamore, Ill., spent the week-end with Dr. and Mrs. H. C. Darby.

Masses on Thursday, Ascension Day, will be at 8 o'clock at the Holy Name Church and at 9:15 at Twin Lakes.

Mrs. H. Boulden and daughters, Mary and Mrs. M. Ballantyne, entertained Mr. and Mrs. Walter Harrison, of Ringwood; Mrs. Lill Boulden, Mrs. Harold Boulden and children, of Burlington; Mrs. Sadie Whitchell, Antioch, and Mrs. Emma Cunniff, of Kenosha, during the week-end.

Mr. and Mrs. F. Kruckman were guests Sunday of Mr. and Mrs. Earle Hyde at Crystal Lake. Mrs. Kruckman remained with her sister, Mrs. Hyde, until Monday.

Dawn Arlene, infant daughter of Mr. and Mrs. Alvin Jerde, was baptized at the Lutheran church by Rev. S. Jodelo Sunday. Sponsors were Rhoda Frank and Herman Ehler.

Mr. and Mrs. Jerde entertained Mr. and Mrs. H. Peterson, Rhoda Frank, Herman Ehler, Herman Frank and Mrs. W. Frank at a dinner in honor of the occasion.

Mr. and Mrs. W. Drake, of Edgerton, were Sunday guests of Mr. and Mrs. Fred Gager.

Mr. and Mrs. Harry McDougall were guests Sunday of Mrs. A. Runkel at Wheatland.

Mrs. Ray Ferry, Kenosha, spent Saturday with Mr. and Mrs. Walter Rasch. Sunday, Mr. and Mrs. Earle Shales and daughter, Hazel, of Woodstock, were at the Rasch home.

Mr. and Mrs. Ira Brown, of Trevor, were entertained Thursday by Mr. and Mrs. George Faulkner.

Burial services for John Kerwin, Union Grove, were held at the Holy Name Cemetery at three o'clock Saturday afternoon. Rev. John Finan officiating. Mr. Kerwin was a son of the late Superintendent and Mrs. John Kerwin, of Silver Lake.

There will be English services at 9:30 and German at 10:45 Sunday morning at the Lutheran church.

Mrs. J. Sutcliffe and son, John, were in Oak Park Saturday.

Mr. and Mrs. P. Meyers and children, of Waukegan, spent Sunday with Mr. and Mrs. F. Beck.

Mr. and Mrs. M. M. Schnurr and family spent the week-end in Milwaukee with Mr. and Mrs. C. M. Anderson.

Ray Stoken and daughter, Eunice,

Mrs. A. C. Stoken and Benjamin Nett motored to Barron, Wis., from Friday to Monday.

Mr. and Mrs. H. Frank and daughter were Sunday dinner guests of Mr. and Mrs. Fred Albrecht.

Mrs. W. Dohy and son, Gene, were over night guests Sunday of Mr. and Mrs. J. A. Nolan at Oak Park.

Mr. and Mrs. Guy Loftus and Mrs. Lester Dix attended a Mid-West Telephone Co. picnic at Moose Lake Saturday.

There will be a card party on the lawn of the Walter Carey residence at two o'clock on Friday afternoon for the benefit of the Holy Name church. Individual table prize will be given and a bridge, 500, euchre and bunnies will be played. Assisting Grace Carey in charge of the arrangements are:

Mrs. John McDaniel, Silver Forest; Mrs. M. Canly, Miss Ethel Canly, Mrs. Joseph Donahue, Mrs. J. O. Ullrich, Chicago; Mary Fleming, Trevor; Mrs. M. Hoffman, Bassetts;

Mrs. W. E. Dohy, Quincy; Mrs. Ed Mutz, Trevor; Mrs. Ben Nett and Mrs. Ray Randolph, Wilmet.

Mr. and Mrs. Clifford Pacey were Wednesday guests of Mr. and Mrs. Earle Shales at Woodstock and Sunday guests of Mr. and Mrs. James Wood at Fox Lake.

Robert Ruesing was out from Chicago over the week-end.

Mr. and Mrs. Walter Cairns entertained Mr. and Mrs. G. Hoegge and daughter, Shirley, of Elgin; Mr. and Mrs. G. March and son, Gene, and Mrs. Robert, Kenosha, and Roger Sherman, Sunday.

Mrs. W. Cairns and daughter, Lois and Rita, called Friday on Mrs. J. Bell, Mrs. G. Jackson, at Salem, and Mrs. Mary Watson, of Richmond.

Guests of the Runkel family were Mrs. J. D. Jennings of Capota, Cal., from Wednesday to Sunday; Sunday, Mr. and Mrs. John Richter, Waukegan; Mr. and Mrs. H. Kott, Lindell Smith, Kenosha, and Joe Werner, Chicago.

On August 21, there will be a card party at the Holy Name church hall with Mrs. Henry Nienhaus as chairman. Assisting her are: Mrs. Nick Grotz, Mrs. J. Roberts, Mrs. Mae Stevens; Miss Rose Yanny, Mrs. Walter Hornhoft. There will be a door prize.

Mr. and Mrs. John Loftus and daughter, Hattie, of Grays Lake, spent Friday with Mr. and Mrs. T. C. Loftus.

Hilda Kimball, Mr. and Mrs. W. Kimball, Mr. and Mrs. Max Miller and Mr. and Mrs. J. Creighton, of Genoa City, called on Mr. and Mrs. David Kimball Saturday.

Rev. and Mrs. E. Kistler and sons, Salem, are camping on the Faulkner grounds this week.

Mr. and Mrs. H. Hoar and son, Mr. and Mrs. Martin Rovinski and son, Kenosha, were guests Sunday of Mr. and Mrs. George Robinson. Friday Mrs. Robinson was called to Pikeville to see her father, Mr. LaPine, who had been injured falling from a load of hay.

Wilmet Fire Department Soft Ball team defeated Richmond Thursday night, 9-0. Reaster and Rausch were the Wilmet battery; Foster and Ehorn were pitchers for Richmond. Wilmet meets Johnsonburg in another league game Thursday night at Spring Grove. The Wilmet team is now leading the league.

TREVOR

Mrs. Charles Barhyte and daughter called on Mrs. Nellie Runyard Wednesday evening.

Mr. and Mrs. Joseph Letzer, Sr., Diana Lodge, Camp Lake, called at the D. A. McKay home Wednesday.

Mr. and Mrs. A. Schmidt and daughter, Barbara Ann, Niles Center, spent Wednesday with the former's brother, John Schmidt and family.

Joe Hurke was a Chicago visitor Wednesday.

Mr. and Mrs. James Webb, Antioch, were Trevor callers Wednesday.

Mrs. Steh, Chicago, is spending this week at her cottage at Camp Lake.

Miss Mala Helz and Mrs. Schumacher, Maywood, Ill., called on Mrs. John Geer Wednesday.

Mrs. Homer Albertson, Silver Lake, and sister, Katherine Mathews, Kenosha, called on their aunt, Mrs. Joseph Smith Tuesday.

Mrs. Wm. Kruckman, son, James, and a friend, Burlington, called on the Patrick families Tuesday.

The Vogler-Schiller pickle factory has opened and is receiving the season's cucumber crop from the farmers.

The Wilmet Week-end at Rock Lake picnic grounds on Thursday noon and engaged a picnic dinner. Their tables were set at seven and eight o'clock on the Schiller lawn, in addition on Wednesday afternoon and evening August 11.

The Trevor Ladies Aid club held a special meeting in Social Center hall on Wednesday evening.

Mrs. Linda Papper and daughter, Lois and Dorothy, motored to Madison Friday. Her daughter, Dorothy, who has been attending summer school, returned home with them.

Mrs. Charles Oetting, Miss Betty Jane Martin and Mrs. Joseph Smith motored to Mason, Ill., on Friday where they visited the latter's nephew and wife, Mr. and Mrs. Will Hanne-man.

The Runyard reunion was held at Rock Lake picnic grounds on Sunday.

Mr. and Mrs. Richard Corrin entertained their daughter, Elizabeth, Lake Geneva, and Mrs. Corrin's mother and sister from Chicago over the week-end.

Mrs. Gilles who has been visiting her daughter, Mrs. William Schillias, is visiting another daughter at West Allis before returning to her home in Lloyd, Wisconsin.

Mr. and Mrs. Andrew Rafferty and children, Rockford, Ill., spent from Friday until Sunday with their aunt.

Mrs. Luannah Patrick and cousin, Milton Patrick, Saturday afternoon with Mrs. Patrick they visited their cousin, Byron Patrick and family at Salem.

Mr. and Mrs. John Melster with friends from Keokuk, Iowa, spent over the week-end with their sister, and brother-in-law, Mr. and Mrs. Ed Mutz.

Pete Schumacher and son, George, called on William Van Osdel at a Chicago hospital on Sunday.

Fritz Oetting, Cicero, Ill., cousin, Herman Oetting, Jr., Berwyn, Ill., and Mr. Anderson, Chicago, called on the former's uncle, Charles Oetting and family Sunday.

Mrs. Daniel Longman, son Russell, and Miss Mary Runyard were Kenosha visitors Saturday.

Mr. and Mrs. Walter Lago and sons, Powers Lake, called Sunday at the Joseph Smith and Charles Oetting homes.

Miss Adeline Oetting, Oak Park, spent the week-end with the home folks.

Mr. and Mrs. Foley, Chicago, spent the week-end at their cottage at Shore View, Camp Lake.

Mr. and Mrs. Carl Schaefer, Jr. and son visited their parents, Mr. and Mrs. Schaefer, and Mr. and Mrs. Carl Schaefer, Jr., and family near Pleasant Sunday.

Henry Oetting, Chicago, who is staying at his cottage at Crystal Lake, called on his brother Charles Oetting and family Sunday.

Evaporation of gasoline varies with temperature and area exposed and is generally less than six tenths of 1 per cent, which would be less than 1 gallon to 1,000 per month.

In April, 1934, a steamer was named in the history of the Children of Peace Women in the City of New York to care for the indigent whose mothers were obliged to work away from home.

Navigator Named Hilo Hilo, second city in America's mid-Pacific territory of Hawaii, is named after the hunch-backed navigator which legend says piloted the ancient Hawaiians to the Islands.

He is shown with Martin J. Belin, (right) vice-president of the American Radiator Co., developers of the machine, at a preview in the Stevens Hotel, Chicago, this month, attended by more than 1,000 housing experts.

WOMEN'S PAGE

Corn Is Highly Nutritive Food

As a nutritive vegetable food, corn has few equals and no superiors. It is one of the few fresh vegetables containing any considerable amount of fat. Its total content of carbohydrates (elements which the body can transform into fat) is second only to that of potatoes. Penned for pennies, it contains a third more food value than whole milk. So its use on the table is as much an evidence of wisdom as of good taste.

Right Way to Boil Corn

Husk the ears, remove the silk with a vegetable brush so it will all come off. Have water boiling and boil corn rapidly for 5 minutes. Remove from water at once and place on plate which has been covered with a napkin, and bring the ends up so the corn will be covered. Do not add salt and do not let the ears stand in the water. Serve at once.

Corn Oysters.

2 cups grated fresh corn
2 eggs
3 tablespoons flour
1 tablespoon melted butter or oil
1 teaspoon salt
Dash of white pepper
Grate the corn from cob; beat the eggs until light, add the butter, salt, pepper and sifted flour and mix well. Sometimes the corn may be dry; in that case add a little milk.
Brush the griddle the same as for hot cakes, and put a spoonful of the corn mixture on at a time; brown slowly on both sides.

Escalloped Corn.

4 cups grated fresh corn
1 cup fresh bread crumbs
1 cup milk
1 tablespoon butter
1 teaspoon salt
1/2 teaspoon white pepper
Scare and cut the corn from cob, brush baking dish with a little butter, line with half the bread crumbs, add half the corn, dust with salt and pepper; add the other half of crumbs and the remainder of the corn, dust with salt and pepper; pour the milk over all and dot with butter. Bake 25 minutes in a hot oven.

CUCUMBERS

While the cucumber is not a highly nutritive vegetable, its delicate and characteristic flavor, its high esteem by epicures, and as a salad ranks among the most popular. Many persons are not able to eat it in the raw state, however, and for the benefit of such this recipe is given:

Stewed Cucumbers

6 large cucumbers (enough to make 2 quarts)
2 tablespoons butter
2 tablespoons flour
2 tablespoons grated onion
1 cup milk
2 teaspoon salt
A dash of pepper
Wash, pare and cut the cucumbers in inch rounds; put in saucepan, cover with boiling water; boil 20 minutes; pour into colander and drain 20 minutes; then add sauce, which is made as follows:
Put butter and onion into saucepan; cook 5 minutes (but do not let it brown); add flour, mix well until smooth; then add cold milk; boil 5 minutes; add the boiled cucumbers and boil 3 minutes.

To Remove Stains from Upholstered Furniture

Blood Stains

Remove by soaking the spot repeatedly with chloroform, working in the open air, or peroxide of hydrogen. For thick goods, use a paste of raw starch and tepid water. Spread freely on the goods, removing when perfectly dry. On silk use strong borax water.

Candy Stains

Remove with cold distilled water, brushing or scraping carefully.

Coffee Stains

Apply cold distilled water; then apply permanganate of potash solution from bottle; then immediately apply a mixture of one part of peroxide of hydrogen, one part acetic acid and two parts water. Keep saturating with the latter mixture until permanganate of potash and stain disappear.

Fruit Stains

Same as coffee stains.

Grease or Oil Stains

Apply gasoline or kerosene some chloroform; allow same to soak in well, then place piece of blotting paper over stain, and pass slightly heated iron over several times over. Or, sponge with carbon tetrachloride, rubbing with the nap of the goods. Continue until all traces of grease have disappeared.

Tar Stains

Except on wash goods, use turpentine and rub with benzine. On wash goods, use lard and after several hours sponge with carbon tetrachloride to remove the lard.

Important

It is apparent that all stains should be removed just as soon as possible. To allow them to dry increases the difficulty of removing them.

While these methods can be safely used on the majority of fabrics, we recommend that highly prized pieces, and especially silk plushes, should be treated by an experienced dry cleaner.

OUR CLASSIFIED COLUMNS BRING RESULTS.

Streamline Your Menus

EVERYTHING is going streamlined nowadays—automobiles, airplanes, trains, furniture, clothes and even menus. But you can streamline the latter during these languid summer months without streaming with perspiration yourself over a hot stove. The method is simple. Just use canned foods which need little cooking, and see how much fuel and energy you save and what satisfactory results you can attain.

You can streamline your guests, too, by making them stream up to a buffet table and help themselves to the dishes which you have prepared with so much ease. In that way it's really easier to entertain fifty people than it would be to serve fifteen with all the formalities of sitting down.

A Summer Buffet

Let's try it. Say someone in your family is getting married. Or say the weather is torrid, but you suddenly feel that you can't wait another moment before beginning to repay an accumulation of social debts. Here's the menu for an appropriate streamlined buffet:

Lobster Salad Sandwich Loaf
Buttered Cloverleaf Rolls
Pineapple Cream Sherbet Cake
Strawberry Grapefruitade
Coffee

Salted Nuts
And here is the way to make delicious lobster salad without the bother of boiling any lobsters and in a minimum of time.

Remove the tendons from six 12-ounce cans lobster, cut into large pieces and marinate in one

cup tart French dressing for an hour or two. Then add three-fourths cup finely diced sweet pickle, three-fourths cup finely diced stuffed olives, one-fourth cup finely diced dill pickle, two tablespoons capers, three cups chopped cucumber, and eighteen hard-boiled eggs cut into eighths, tossing all lightly together to avoid breaking pieces. Add mayonnaise to mask slightly, faking in gently. You will need for this from two and a half to three cups of mayonnaise. Serve on lettuce. Serves fifty. And there you are!

Plenty of Fruit Juices

Remember that it's hot, but there are plenty of cooling fruit juices in this streamlined menu. There is lots of pineapple juice in the

Pineapple Cream Sherbet: Soften three tablespoons gelatin in two-thirds cup cold water, then dissolve in one quart boiling water. Add six cups sugar, dissolve, and let mixture cool. Add five cups scalded and cooled cream and the contents of two No. 2 cans pineapple juice. Freeze. Serves fifty.

Strawberry Grapefruitade: Boil four cups sugar and three cups water for five minutes; then cool. Hull two quarts strawberries, wash, crush, add one cup sugar, let stand for an hour, then add to the cold syrup. Add the juice of twelve oranges and six lemons and the contents of two No. 2 cans grapefruit juice. Just before serving add the quarter gingerale, and serve over a large piece of ice in a punch bowl. Serves fifty.

Quick Drinks

for Juicy Health

HEALTH insurance comes in fruits. They not only taste good and stimulate the appetite, but they are deliciously important as sources of mineral elements and vitamins. The modern generation wants to do things quick. They're all very busy at what interests them, and they want to drink down their health at one gulp.

Fortunately for them there is a way in which they can imbibe health from fruits. If not in one gulp, at least in a series of rapid sips. That is by drinking fruit juices. And another fortunate circumstance is that they don't even have to spend the time to squeeze the fruits because the best of grapefruit juice, pineapple juice and prune juice comes, already squeezed, in cans.

Summer Drinks

Prunade: Boil one-third cup sugar and two cups water to a rather firm mixture. Add the juice of eight lemons, one cup canned pineapple syrup, one cup canned prune juice and three cups cold water. Serve very cold in punch glasses. This recipe makes from twelve to fifteen punch glasses which will disappear as if by magic.

And here's another summer drink which doesn't take any longer to prepare and deserves its name.

Orlic Delight: Boil three-fourths cup sugar and one cup water five minutes; then cool. Add the contents of an 11-ounce can grapefruit juice, one cup orange juice, one-fourth cup lemon juice and four cups cold water (charged if desired). Serve very cold. This makes fifteen punch glasses.

Oldest Ball Field on Coast
Oak Park in Stockton, built in the '80's, is believed to be the oldest baseball field on the Pacific coast.

Mind Your P's

and No Q's Asked

IT'S peculiar how popular is the letter p when it comes to spilling out foods. There are peas, peppers, potatoes and pumpkins to start with. peaches, pears, pineapples and plums (to say nothing of prunes) to continue, and parsley, pickles, pimientos, popcorn and potted meats to carry on. Even parsnips have their partisans. Serve these or combinations of them and there'll be no questions asked. For these particular foods not only get along famously by themselves but they pair off well together. Take, for instance, this

Pea and Potato Salad: Drain one cup of canned peas, add one and a half cups diced boiled potatoes, one tablespoon chopped onion and one tablespoon chopped pimiento, and marinate in four tablespoons French dressing. Add two tablespoons chopped walnuts and one-third cup mayonnaise, and season to taste with salt, pepper and celery salt. Serve on lettuce leaves. Serves four.

A Party Dish

And here's another allitorative pea recipe in which the peas consort with pimientos and other ingredients in pastry cases. Its full name is

Pasty Peas in Pastry Cases: Make a white sauce of two tablespoons butter, two tablespoons flour, three-fourths cup evaporated milk and all the liquor from a No. 2 can peas and a 2-ounce can mushrooms. Season with salt and pepper, add the peas, mushrooms and one-fourth cup shredded pimiento, and reheat. Serve in pastry cases, in small patty shells, in timbale cases or on toast points. Serves six to eight.

Benedictine

Benedictine is a cordial containing varying amounts of sugar. Due to this variation, no definite statement can be made as to alcoholic content, but it usually contains 40 to 60 per cent by volume.

Summer Health Hints

By SHIRLEY W. WYNNE, M.D., D.P.H.

CLEANLINESS, which is always of the utmost importance, is vitally so during the summer months because when the temperature is warm, bacteria grow more rapidly and food, therefore, becomes more easily contaminated and spoiled. Most cases of food poisoning, or so-called ptomaine poisoning, are due to the contamination of food by germs. When food so contaminated is eaten it gives rise to severe symptoms in the gastro-intestinal tract. Dishes, glasses, eating utensils, cooking utensils, and especially refrigerators, should be thoroughly cleaned with plenty of soap and hot water. Beyond upon physical cleanliness obtained by thorough washing with plenty of soap and water and that old ingredient, "elbow grease," rather than upon antiseptics and deodorants. These latter have their use to sprinkle on garbage and other refuse—but old-fashioned cleanliness is the best protection of health.

A shower bath night and morning with a good lather of soap is not only refreshing but keeps the skin healthy and functioning properly. One of the important functions of the skin is elimination of some of the waste products of the body and since we perspire more in warm weather, it is important

Shirley W. Wynne, M.D., D.P.H.

frequently to wash away the waste products excreted. After work or exercise a bath with plenty of soap is indicated. Thorough cleanliness is also the best preventive of not a few skin diseases. I do not believe that we can bathe too frequently during the hot weather, provided we do not remain in the bath too long or bathe immediately after eating. Young children and babies, during the very warm days, should be given frequent sponge baths.

SUMMER SALADS

in new dresses

OF course you know the kinds of salads you want to serve this summer. They're much the same salads as you served last summer—tender green things like cucumbers, for instance. But even salads have their feelings. They begin to sulk if you don't give them a new dress now and then. And that sulky look is reflected on the faces of those who eat them and mentally, if not vocally, rebel at the "same old thing."

Pool em! Get a new dress or a new garnish or a new ingredient for a well-known salad, and you'll never see a sulky look. Take cucumbers. You've served them in a gelatin salad perhaps, but have you ever served them in a combination with pineapple like this:

Jellied Cucumber and Pineapple Salad: Soak two tablespoons gelatin in cold water five minutes, then dissolve in one cup boiling water. Add one-third cup sugar, one-half cup lemon juice, one-half cup vinegar and the juice from half a lemon. When cold and beginning to stiffen, add one cup grated cucumber and one cup crushed pineapple, and pour into a shallow, wet pan. When ready to serve, cut in cubes and serve on lettuce. Garnish with whole pecans and cream mayonnaise. Serves eight.

A New Red Dress

Give the alligator pear, always popular for summer salads, a new red dress. Here's the way:

Alligator Pear Salad with Tomato Dressing: Keep alligator pears very cold, and prepare at the last minute, to avoid discoloring. Then halve, stone and pare, and arrange hollow side up in a bed of crisp greens. Garnish with ripe olives and strips of pimiento and pour over this ice cold.

Tomato Dressing: Mix well and chill six tablespoons olive oil, two teaspoons lemon juice, one teaspoon salt, one-fourth teaspoon paprika and two tablespoons canned catsup. Pour over the pear just before serving.

Buffaloes Followed the Grass

In the days before the white man, immense droves of humped buffaloes would leave Texas, Arizona and New Mexico in the spring of the year and leisurely follow the grass, probably into Canada. When cool weather came they would retrace their steps. Before the advent of the railroad, Texas cattle men following the buffalo's lead, drove their herds over the old Chisholm trail. They found that by adopting the tactics of the monarch of the prairie they would be assured of bountiful grass by driving about ten miles a day, starting when the grass reached the peak of its greenness in Texas.

Old Hawaiian Star-Gazers

Polynesians who inhabit the Hawaiian Islands and whose ancestors are believed to have reached the archipelago from Tahiti had an elementary knowledge of astronomy. They steered their great outrigger canoes by the North Star and had the location of four or five planets fixed in their scheme of navigation.

LAKE VILLA ROCKS CHANNEL LAKE, 14-8

Westiders Look-on While Opponents Celebrate Lake Villa Days

That Lake Villa jinx who has been following the Channel Lake A. C.'s around the softball lots this summer, came out in the hot sun long enough Sunday as part of the Lake Villa Days festivities in Lehmann Park to cast a 14 to 8 shadow over the west-side Lakers.

Left-hand-swinger Turk was head man jinx-dispenser, fanning on the CLAC hurlers' meat for a quartet of three-baggers which added 4 runs to the Lake Villa box score. Jensen started for Channel Lake allowing 9 hits for 10 runs in four and one-third innings before "Cortney-of-the-center-garden" Sorenson mounted the slab to quiet the frolicking.

The Lakers started in on Pitcher Ed. Tiede in the opening to grab themselves a 3-run lead following a homer by Sheehan who brought two mates in ahead of him, then he kept things under control until the 5th when Folbrick rounded the bags for his homer. Woods poled a homer with the aid of an error in the 7th that closed the Lake Villa scoring with 3 more runs. Lineups:

Tea From China
The use of tea was first discovered by the Chinese in the third dynasty, at the close of the Han dynasty, and history is full of quaint legends regarding its inception. Though tea growing has been transplanted to almost every Asiatic country, the Chinese still claim that there is something in the climate and soil of that country that produces tea with special fragrance and flavor.

Township Teams Ruin Outsiders at Spring Grove

Channel Lake A. C. and the Antioch All-Stars featured the double bill presented at the Spring Grove grounds Monday night with practical demonstrations in the gentle art of knocking the cover off the softball, the Lakers getting a 13 to 12 verdict over the Willmot Firemen and the Stars mauling the Spring Grovers, 16 to 11.

Elmer Smith of Channel Lake was the evening's slugger with two lustrous thwacks against the Willmot pitchers that were good for round trip tickets over the bags. "Cortney" Sorenson, Miller, Folbrick and Masters all deputed the ball for homers, while Tyler, the losing pitcher, was the only Willmoter to poke Ben Fox for the circuit faint.

Stars Get 19 Hits
In the second tilt of the evening, Antioch's Stars continued the hall murdering business with Joe Storbenn and Bud Polka accounting for sizzling home runs. Their mates eluded a grand total of 19 solid hits to all points of the pasture to make the evening a festive affair for the customers.

Bill Keulman took things easy most of the session and tossed up his offerings with the idea of giving his fielders a bit of practice. He allowed the Spring Grovers a total of 12 hits and outside of their rally of 5 runs in the second, were easy pickings. Box scores:

FIRST GAME				
CLAC	205-101	31-13	16 9	
Willmot	070-050	00-12	14 5	
SECOND GAME				
Antioch	361-500	1-16	19 0	
Spring Grove	050-240	0-11	12 3	

Being Proficient, Efficient
Proficient and efficient are almost interchangeable, but not quite. Proficiency denotes skill, as does efficiency. But the latter introduces an element of mental capacity not connoted by the former. To illustrate: Two workmen may be equally proficient, equally facile with their tools. They are given identical jobs. One arranges his tools orderly, so that there will be no lost time in the performance of the job; the other mislays his tools and loses much time in finding them. The first is efficient; the second is not. Similarly, a woman may be a proficient, a capable housekeeper; but not nearly as efficient as she would be with modern mechanical aids.—Literary Digest.

Flowers as Traps
There are flowers that close immediately bees and other insects lodge inside them, and in the tropics there are larger specimens which ensnare small birds and mice. Scientists say that they extract the blood from small animals and birds and eject the carcasses. One, a Javanese flower, lures mice into its mouth and drowns them in fluid. Another kills dogs and even goats with its poisonous fumes.—Tit-Bits Magazine.

LAKE CO. TO CURB SUMMER PEDDLERS

State's Attorney - Supervisors Seek Means to Protect Legitimate Merchants

Setting of high license fees and inflicting heavy fines for violators may be the means enacted by the Lake County Board of Supervisors to protect merchants of the county from the hordes of summertime truck peddlers.

Because they have neither rent nor license fees to pay, these truck vendors swarm into the summertime subdivisions and resort regions selling fruits, vegetables, other food stuffs and beverages for a few pennies less than legitimate merchants. In addition they drive trucks around without cash registers to dodge payments of the state sales tax.

The resolutions, and judiciary committee of the board and the state attorney are conferring to find some legal means to license such peddlers, hoping to make the cost of doing business in the county high enough to discourage them, or at least to put the county merchants on an equal footing.

Village officials and Antioch businessmen who seek the means of protection from the menacing peddlers are watching the efforts of the county board.

LEFT-HANDEDNESS IS BRAIN MYSTERY

Light Thrown on Phenomenon of Ambidexterity.

London.—A former deputy commissioner of London's metropolitan police once half seriously suggested that a police car should be perpetually parked before 45 Hans place—so often did Scotland Yard require the services of the man who lives there. This man, also known as the "official counsel to the C. I. D.," is Sir James Crichton-Browne, author of some novels based on paradoxes of legal medicine and serious works on nervous diseases, and vice president of the Royal Institution. Just 27 years ago he concluded a lecture on "Dexterity and the Brain" at the institution with the words:

"We cannot get rid of right-or-left-handedness try how we may. To raise out the written troubles of the brain is no easy matter; to delete its deeply engraved records is a task impossible."

Expert Elucidates.
A representative of the Daily Mail having recently read a report of the lecture through and failing to grasp it entirely called at 45 Hans place, thinking to catch Sir James napping. To one way he did, for Sir James had just been celebrating his ninety-fourth birthday. In another way, he didn't, for when he left he took with him an elucidation of the lecture of 1908 which, in the Daily Mail, reads in part as follows—an epic of its sort:

"Ambidextral culture, useful enough in some specially employed persons must on the large scale tend to confusion."

"Right-handedness is woven in the brain and so is left-handedness, and to change the pattern you must unravel the tissues. My conviction is that as regards left-handedness it is well to leave well alone."

"I am interested to note, therefore, that our London school doctors who have been investigating the teaching of left-handed children have come to the same conclusion as that at which I arrived so long ago. Their memorandum just presented lays stress on the serious danger that may result from pressure in correcting left-handedness in children when it is either natural or well established."

"There are cases of genuine and permanent ambidexterity, notably that of Lord Baden-Powell, that benefactor of his country, who is accustomed to use both hands interchangeably."

"It has never been suggested that left-handedness or ambidexterity is indicative of any mental defect or incompatibility with the highest intellectual power or with genius. Leonardo da Vinci was left-handed."

"Natural left-handedness is merely a transference of power from one side to the other, and acquired ambidexterity means the special training of certain groups of muscles and their springs in the brain for certain movements. It is all a matter of cerebral organization."

Mysteries of the Brain.

"The two hemispheres of the brain are not functionally symmetrical. In a vast majority of persons the left hemisphere is the more voluntary, the right the more automatic, but there is an occasional reversal of this arrangement."

"Now the hand and arm centers are adjacent to each other and closely linked with the speech centers in the brain, and it is a significant fact observed by the London school doctors that stammering is among the nervous systems induced by ill-judged efforts to correct left-handedness in young children in whom the evolutions of the brain centers are still going on."

We have right and left-handedness everywhere. In the human subject it is well to accept it as it is, and make the best of it without attempting any futile, perhaps hazardous, transformation."

The Lizard Canary
Though smaller than the Norwich, the lizard canary resembles the latter variety somewhat in build. It is not so full in the neck or so large in the head, however. English breeders say that the first lizard canaries were brought to their country by the Illegots when they fled from the continent, and these birds probably made their first journey to America via the British Isles.

The Sethites
The Sethites was a sect in the Second century that worshipped Seth, the son of Adam, as the son of God, and maintained that he had reappeared on earth in the person of Jesus Christ.

When Texas Became State
When Texas became a state in the Union there was a provision that the state might subdivide into not more than five states and Texas retained all its public lands.

Game of Chess
The game of chess is of Oriental origin, probably Chinese or Indian, but half a dozen other lands have ancient traditions concerning it.

Edward Cerny of Chicago spent a few days with Mr. and Mrs. James Babor. Mrs. Babor accompanied him to Chicago.

NOTICE OF LETTING

(1) Sealed proposals for furnishing materials required in the Construction, of Section I. C. S., Arterial Street, Street No. 4, in the Village of Lake Villa, Illinois, County of Lake, will be received in the office of the Village Clerk until Four o'clock P. M., September 2nd, 1935, and at that time publicly opened and read.

(2) The unit price for each item shown in the schedule of prices is to be based on delivery as follows:

a. All material F. O. B. Job.
(3) The source and point of delivery shall also be shown. Materials delivered on the road shall be placed at such points as the Engineer may direct.

(4) All proposals shall be made on forms furnished by the Village Clerk, which may be obtained at the office of the Village Clerk, and shall be enclosed in an envelope upon which shall be endorsed, "Material Proposal, Section I-C. S."

(5) Plans may be seen at the office of the Village Clerk.

(6) The right is reserved to reject any or all proposals and to waive technicalities. No proposal guarantee will be required.

(7) A surety bond for the full amount of the award will not be required.
By order of President and Board of Trustees,
August 15, 1935.
(signed) J. M. Philippl, Clerk

means, in this shop, just exactly what the dictionary says...

"THE ART OF PRINTING"

The same care, the same thought, the same exactness of balance, harmony of color and choice of medium is used by us on a piece of printed matter that the artist uses when he is painting a picture.

The completed work is a real piece of art, pleasing to the eye, easy to read and hence... GETS RESULTS.

The Last Duel
No definite information is available on the date and place of the last duel in this country. A bill prohibiting dueling in the District of Columbia was passed in 1839 and since the Civil war stringent laws have been passed in all the states against dueling. The practice became obsolete in this country decades ago, but it was a gradual disappearance and no doubt many duels were fought secretly even after the passage of some of the state laws.

Fiji Islanders Know Grief
Natives of the Fiji Islands, despite their savagery and low regard for human life, are known to die of grief, writes Anne Chadell, New York City, in Collier's Weekly. There are records of many cases in which both men and women, upon being permanently separated from their sweethearts, have developed what they call "dungal," which is nothing but love-sickness, and physically decline to the point of death.
